

DECOFLAME BLUETOOTH APPLICATION™

Control your Decoflame fireplace.

Defined by the highest product functionality and safety, all decoflame® fireplaces equipped with the electronic burner, **Denver e-Ribbon Fire™** or **Denver e-Ribbon Basic™** featuring CEVB technology (Controlled Ethanol Vapour Burning), can be operated via Bluetooth using the decoflame® App as an alternative for the decoflame® remote controller.

With the decoflame® App, you can:

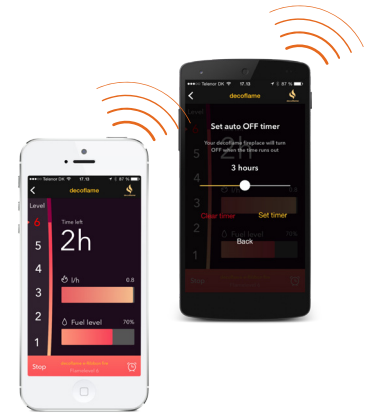

- start/stop the fireplace/s
- adjust the flame intensity
- stay informed about the fuel level in the tank
- stay informed about the estimated burning time
- set the auto shut-off timer

For the the Denver e-Ribbon model only:

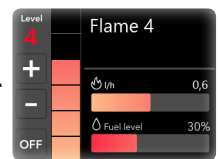

The RS-232 cable provides you with the possibility to connect your fireplace to a Smart Home System.

With its simple, user-friendly design, the decoflame® App allows controlling one or several fireplaces with the same device.

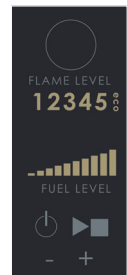

The app is available for both Apple and Android products.

The Denver e-Ribbon fireplace is equipped with a Touch Screen Display.

The Denver e-Ribbon Basic fireplace is equipped with a control panel.

*Requires iOS 13 or later.

**Requires Android 6 or later.
